

DRINKING WATER WEEK

WATER VAPOR

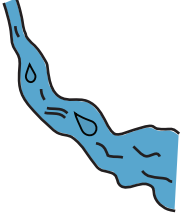

Water vapor is invisible in the air

WATER ICE

Water freezes into ice and snow on mountains

WATER LIQUID

Water liquid can be found in rivers, oceans, and lakes

Drinking Water Week Activity Sheet Release Form

I hereby grant permission to Greenville Water to share my child's Water Cycle coloring activity sheet on their webpage and via their social media accounts (Facebook, Instagram, etc.). I understand and agree that my child's submission will become the property of Greenville Water.

I hereby irrevocably authorize Greenville Water to copy, exhibit, publish, distribute or alter my child's coloring activity sheet submission for any lawful purpose. In addition, I waive any right to inspect or approve the finished product.

I hereby hold harmless, release, and forever discharge Greenville Water from all claims, demands, and causes of action which I, my heirs, representatives, executors, administrators, or any other persons acting on my behalf or on behalf of my estate have or may have by reason of this authorization.

By submitting your child's activity sheet, you confirm that you have read, understand and agree to abide by conditions described above, in this Release.
